So you're planning a houseboat vacation and your crew is striking out somewhere new onboard a fabulous houseboat rental! Pulling together a houseboat trip is an absolute blast, but if this is a new type of vacation for you, here are a few things to help you plan.

# PLANNING TIPS:

At first glance, taking a boat this size out on the water can be intimidating. Let us walk you through a few things about a houseboat vacation to ease your mind and explain exactly what it is. Houseboating is a unique way to get close to nature while still having all the comforts of home.

## BRINGING A GROUP?

Try coordinating among yourselves so you only bring so many sets of sun lotion, aloe vera, hair dryers, etc. You really don't need fifty extras of supplies like this onboard, and it'll save that much more space for everyone.

## BRINGING THE KIDS?

Help keep them feel comfortable by not forgetting that special blankie or toy. It'll add a nice homey touch to an exciting but strange place and can help the kiddos relax a little better, especially at nighttime.

If your group is into music, don't forget to check out whether your rental has a docking station and what devices would be compatible.

Choose your travel crew wisely. Remember, you'll be brushing elbows with these people for a good couple of days, and there aren't too many places to retreat to when you're sharing a full houseboat!

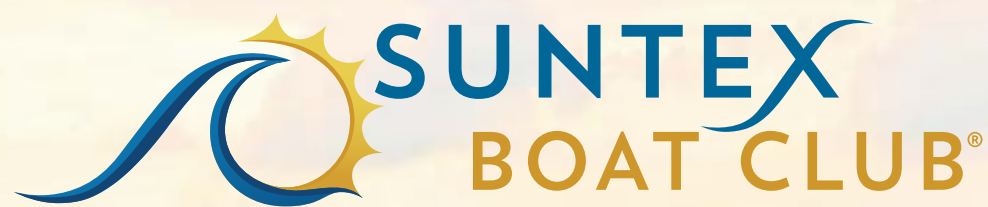

Bring lots of favorite board games, electronic games, books, and movies for those rare down time moments. There's so much to do on the lake, it seems like you'll never have down time.

But after dark or when the afternoon sun may be too hot in the middle of the day, it's nice to have backup activities to keep yourselves entertained and enjoy your vacation just a little bit more.
